## Living in the Future

by Pat Duke

**T**he future holds a lot for **Radio Comix** fans! We've been burning the midnight oil to prepare some of the most innovative projects you're likely to see in the new millennium! Here's a little sample of the some of the comics in your future!

**Radio Comix** has partnered with **Toren Smith's Studio Proteus** and **Dark Horse** to produce a new 128 page monthly comic called **Super Manga Blast!** This massive new anthology features some of the hottest manga anywhere! Check out this line-up: **Oh My Goddess**, **What's Michael**, **Seraphic Feather**, **Shadow Star** and **3X3 Eyes!** 128 pages of killer content every month for the paltry sum of \$4.95! This is simply the best bargain available in any comic shop and the most notable manga development in the US in years! Once again, **Radio Comix** makes manga history! You're going to want to get in on the ground floor of this sure-fire hit! The first issue will be on the stands in March from those great folks at **Dark Horse Comics!**

**More Moore!** **Richard Moore** offers up a new one-shot called **The Pound**. Of course we all know **Richard** from his critically-acclaimed work on **Far West** and his frequent contributions to **Milk**. **The Pound** is an explosive sci-fi story about a world where animal hybrids and humans co-exist! Of course, it's told in the same riveting style of **Richard's** you've come to love and the art is simply gorgeous! **The Pound** hits the streets in March!

**Eureka!** **Brian Sutton**, **Shon Howell** and **Mark Moore** team up to deliver a thrilling retro science fiction adventure filled with humor, action and cliffhangers galore! Of course, **Shon** and **Brian** are well known from their long involvement with both **Furlough** and **Genus**, and **Mark Moore** is one of the hottest new talents to grace **Furlough** in quite a while! This miniseries promises to please the most discerning of funny animal fans! Issue one of **Eureka** rockets your way in April!

Plus, there's more manga in the works from **Radio!** We've been deep in negotiations with **Trump**, **Naginata Matsurino**, **Yoshitoh Asari**, **Hisao Tamaki**, **Yusaku Toyoshima** and more in order to bring the best manga we can to you! First on the schedule will be an awesome adults only one-shot from **Trump**, with more titles to come as negotiations are completed! If that weren't enough, **Tsukasa Kotobuki** fans will be pleased to know that 2000 is the year for both a **Mechanical Man Blues** graphic novel and the anthology special **Mechanical Man Blues Toolbox!** Keep watching this space for more updates, art previews and more info!
